it's too rainy day

Imagine, if you will, that you are walking outside on a rainy day, and some smooth "rainy day music" is accompanying you. Along your journey you also notice that you have a loaded gun, and for some inexplicable reason, you must shoot and kill the various mobs of people who are casually walking in your direction. There are also missiles flying through the air, but it doesn't seem to matter, because you have at your disposal the most powerful weapon mankind has to offer: the "rainy day music" that plays endlessly in your head.
