About This Game

Scarlet Scarf is a visual novel inspired by the legend of Plague Maiden.

Dive into the dark mysteries of a dying city with the fate of Sanator Richard Murdock in your hands.

Perhaps it's not too late to stop the on-going calamity.

Domus et Animae

A unique setting

This world has fallen twice, and its future is happening on the ruins of a forgotten past. Technology has become like magic, and the mundane is considered a miracle.

On the ashes of megacities, new powers rise with only one goal: to discover how much they've lost.

Monsters lurk nearby.

Here, children draw symbols around their beds so they won't be dragged away at night, and mothers wish for them to sleep lightly rather than soundly. Every day is an endless battle, but death is not the worst possibility for the loser.

Who knows whether or not you'll return after leaving home?
And if you do, will you be the same?

Here, everyone is looking for answers, but they only find new questions. And the lucky few who still gain knowledge...

You wouldn't want to be in their shoes.

Difficult decisions

Duty or sympathy? Vengeance or justice?

In this world, no decision is right.

Your first recollection is a flock of crows looking down at you.

You were nurtured within the walls of Kerneberg, to serve as a healer of plagues. With Tentaria as your mother and Elm as your father, all good people from the frozen taiga to the shining Milky Mountains will call you Brother.

Your mind stores the names of lords and monsters, yet you've forgotten the most important thing.

Who are you?

Key features

- ★ Stylish artwork perfectly complements the text, forming an original way of narration.
- ★ Eerie and enchanting musical compositions, created exclusively for the game, telling their own stories about the serenity of the last autumn days and anxiety of facing the mysterious pestilence.
- ★ Inventive GUI features designed to bring maximum comfort.
- ★ Full immersion into the occult dystopia of "Domus et Animae" — a unique universe, painstakingly built during eight years of labour and experiments.
- ★ Winner of the Anivisual Contest #1 — the largest annual Russian visual novel contest.
- ★ With the fate of the Sanator in your hands, experience four unique endings.
- ★ Start your journey by playing the free demo: "Sanator: Chronicles of Reustadt" — a stand-alone story, that will introduce the main characters and reveal what had been happening in the city a few days before the epidemic.
